

the rest of the system The best p30w0
rest of the system The best modules p30w1
of the system The best modules are p30w2
the system The best modules are those p30w3
system The best modules are those whose p30w4
The best modules are those whose interfaces p30w5
best modules are those whose interfaces are p30w6
modules are those whose interfaces are much p30w7
are those whose interfaces are much simpler p30w8
those whose interfaces are much simpler than p30w9

The best modules are those whose interfaces p35w0
best modules are those whose interfaces are p35w1
modules are those whose interfaces are much p35w2
are those whose interfaces are much simpler p35w3
those whose interfaces are much simpler than p35w4
whose interfaces are much simpler than their p35w5
interfaces are much simpler than their implementations p35w6
are much simpler than their implementations Such p35w7
much simpler than their implementations Such modules p35w8
simpler than their implementations Such modules have p35w9

that a module imposes on the rest p60w0
a module imposes on the rest of p60w1
module imposes on the rest of the p60w2
imposes on the rest of the system p60w3
on the rest of the system The p60w4
the rest of the system The best p60w5
rest of the system The best modules p60w6
of the system The best modules are p60w7
the system The best modules are those p60w8
system The best modules are those whose p60w9

the rest of the system The best p65w0
rest of the system The best modules p65w1
of the system The best modules are p65w2
the system The best modules are those p65w3
system The best modules are those whose p65w4
The best modules are those whose interfaces p65w5
best modules are those whose interfaces are p65w6
modules are those whose interfaces are much p65w7
are those whose interfaces are much simpler p65w8
those whose interfaces are much simpler than p65w9
